World Law Group Series Volume 4 Although the economic downturns of 2001 and 2002 have threatened to dampen enthusiasm for employee equity participation in business enterprises, such plans continue to be offered by employers in nearly all major national jurisdictions. The time is ripe, in fact, to clarify and elucidate the legal complexities of extending such plans across borders to employees working in other countries. This is the first book to provide in-depth, country-by-country coverage of the national law issues that must be considered by an employer implementing (or considering the implementation of) a multinational employee equity plan. For each of thirty countries, International Employee Equity Plans presents a detailed survey of applicable law, trends, and customs affecting employee participation. Each chapter is written by practicing employment lawyers in that particular jurisdiction, ensuring that the critical issues, potential pitfalls, and likely changes are incisively dealt with. Among the matters described and analysed for each country are the following: the most advantageous (and disadvantageous) types of plans; relevant securities offering rules; all legal compliance steps; available exemptions and reliefs and the conditions upon which they are offered; the fine line

The Christian Church has been "welcoming the children" in every generation since Jesus' earthly life. The early church, and generations of Christians since, would find expressions of care, appropriate for their times, to help needy families and dependent children. This story is about how the Christian church, with the major focus upon Arizona Baptist Children's Services (ABCS), has responded to the mandate of Jesus to "welcome the children" whose families have been crippled or absent. To tell that story, the writer has chosen to go back in time to create a context of historical examples. What ABCS and other Christians are doing in the Year of Our Lord, 2010, is little different than the experience of how the

church responded to the needs of children in the first, fifth or eighteenth centuries. Only the methods have changed. The methods have evolved from foster family care to specialized services for children and families. These state-of-the art modern methods of care are described in detail. This should be helpful and informative to social workers and others who work with troubled families and children in out-of-home care in a faith-based context.
