In this short yet fascinating book, you will read about everything that is important or even critical to us turns out to be less and less important over time. We do not know what really matters in our lives. One day, we are happy; by the next, we are sad or worried. When we are in a specific time, place, and condition, we think that certain issues are important and critical and assign them a value. You alone have the right to choose the best path to a peaceful and enjoyable life. You can be in any kind of position or have any level of income and be happy regardless of what goes around you. If you have never given yourself time to think about your life and what you are doing, this is the right time to do so. This is the particular time that you can ask yourself if you are on the path that leads you to where you want to be and whether you are enjoying your life. Ask yourself if you have a forgotten passion that is burning inside you, a love for anything in this world that can take you to a higher level of energy and eagerness. Find your passion today, and decide to live a meaningful life that is free of fear.

Book Praise & Reviews "As a how-to guide, this book contains everything you may need to know to turn your passions into profits.™ Bill Bartmann (Billionaire entrepreneur, author, speaker, educator) Read & Give Program A portion of the sale of this book is donated to charity. Book Description Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, 5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need to go out and do the concrete things to turn your dreams into a reality. Conversationally written and filled with humorous drawings, helpful worksheets, and key tips, 5 Easy Steps to Financial Freedom also offers a 90-day action plan that includes blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. 5 Easy Steps to Financial Freedom shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life! what really happened? is an investigation book about the secret history or the hidden history of the humanity, although the book develops topics related to philosophy, quantum physics and spirituality, the central topic of the book is the question "what really happened?"

Educational and interactive, What You Really Really Want includes revealing quizzes, creative exercises, and reality-based advice about sex and sexuality today. *No dogma please. And hold the mustard. For something to be called Christianity, it should be based on the teachings of Jesus Christ. Jesus never said he needed to die for our sins so we could be "saved." Only Paul and John make this claim. Christianity has therefore become a form of Paulism and Johnism that emphasize the Savior aspect of Jesus. But Paul had never met or heard Jesus teach, and John tells a story that's so different from the other disciples that we must seriously question him as a source. Did you also know there are two different biblical stories about how Judas dies? And Mary Magdalene wasn't a prostitute until the Pope made her one in the sixth century. Pope Urban II even made killing non-Christians acceptable in the eleventh century. Other subjects include ancient Buddhist records about Jesus traveling to India and studying Buddhism. Jesus may even have studied and practiced Kabbalah. Subsequently, What Did Jesus Really Say is an easy to read introduction that also reflects on God, Karma, Buddhism, Kabbalah, Reincarnation, Politics, and even Astrophysics.*

*The Pumpkin Falls Private Eyes grapple with pirates and mermaids in the third cozy mystery of the Edgar Award–nominated middle grade series from the author of the beloved Mother-Daughter Book Club books. Truly Lovejoy is excited for the perfect summer in Pumpkin Falls, New Hampshire: swim practice outside, working at the bookstore, one-on-one time with her mom, and best of all, time with the dreamy RJ Calhoun who may just like Truly back. But the idyllic falls apart when she's sent off to mermaid academy—sparkly tail and all. Luckily, a mystery is never too far behind the Pumpkin Falls Private Eyes, and synchronized swimming turns into a hunt for a sunken ship and an investigation of the founding of Pumpkin Falls…which may have involved more pirates than originally thought. And as the Pumpkin Falls Private Eyes get closer to the heart of the mystery and Truly gets closer to her mermaid debut, she may just learn to come out of her shell.*

*Have Anything You Really Really Want! is a thought-provoking study about the power of positive thinking and the Christian faith. It follows the authors own personal journey of faith and discovery as he details how his Christian faith unleashed a positive powerin the attainment of personal, even material goals (including the acquisition of university degrees and a Rolls Royce!), but more significantly in the realisation of far-reaching goals: the discovery of his wife and ultimately the transition from university professor in South Africa to successful hotel-owner in Scotland. An important lesson in the experience of mid-life change is seen in the close dependence on Gods love and boundless supply for all needs, material and spiritual. From establishing an objective, working out a strategy, and using faith and initiative, this detailed thesis explores the essential principles for personal success and achievement and guides the reader step-by-step through the practical process of attaining his or her goals. In the final analysis, however, it asks whether it is the individual, or the invisible hand of Providence, which engineers the successeven to the extent of changing ones original goals, and changing oneself in the process.*
